## Application Questions

1. Since God mandated the sanctity of human life for the whole new world in Noah's day forward, what should be our response to common issues of our day like euthanasia, abortion, & suicide?
2. Since God has given pre-eminence to man over the animal kingdom, what freedom does man have to use animals for their benefit? Should stewardship be an issue when addressing the environment and endangered species? What balance should be practiced when the advancement of humanity seems to endanger animals?
3. How do we reconcile the provision to eat all animals, when Leviticus 11 prohibits the eating of certain "unclean animals?" Were those prohibitions reserved for Israel for a particular purpose in separating Israel from the rest of the world? What do we do with 1 Timothy 4:1-5? Can we eat anything we want? Look at 1 Corinthians 10:31-33.
4. Why do you think God mandated capital punishment for the new world in Genesis 9:5-6 (See also Romans 13:1-4)? Why are so many people against capital punishment when God is clearly for it? What is God's basis for such punishment? Is there anything inconsistent with God giving such authority to *godless* government? See Paul's comment to Festus in Acts 25:11.
5. What is a covenant & what are the characteristics of the covenant God made with the new world? What does this covenant say about the omnipotence & providence of God in the world?
6. It appears that the moon and the stars were put in the sky as signs for "seasons & for days & years," (Gen 1:14) that is calendar and timing purposes. The only other God-given sign in the sky is the rainbow. What is it supposed to remind us about God? What would you tell someone who is constantly looking at the stars to "guide them?"
