Application/Study Questions:

1. The writer of Hebrews gives us a long list of men and women who did incredible things for God by faith. We often think that faith lessens our responsibility to plan, organize, and work hard. Why are these not in opposition to faith but rather complement to real faith?
2. It is amazing to reread the stories of Gideon, Barak, Samson, Jephthah, David & Samuel. God did incredible things through these men in spite of their flaws. Should we presume that God is going to work spectacular things in similar ways through us? What balanced approach should we take regarding doing incredible things for God?
3. How does v. 35-38 teach against the “health, wealth, prosperity gospel?” How does real faith endure hostility, trials and even the possibility of death? Read 2 Cor 12:1-10. What lessons did Paul learn about enduring trials?
4. What motivates true believers to endure such horrific suffering? Are you willing to suffer for the sake of Christ if the Lord allows it in your life? What does the Apostle Paul teach in Philippians 1:29? What ways are Americans being persecuted today?
5. What might be a few reasons why God may choose not to deliver some who trust in Him?
